No. 05-39

PLANNING DIVISION CITY OF SUNNYVALE P.O. BOX 3707 SUNNYVALE, CALIFORNIA 94088-3707

NOTICE OF INTENT TO ADOPT NEGATIVE DECLARATION

This form is provided as a notification of an intent to adopt a Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Use Permit by KC Associates.

PROJECT DESCRIPTION AND LOCATION (APN):

Application for a Use Permit on a 2.6-acre site to allow a new seminary within 7,200 square feet of an industrial office building. The property is located at **850 Stewart Drive** (near DeGuigne Dr) in an M-S (Industrial & Service) Zoning District. (Negative Declaration)(APN: 205-26-003)

WHERE TO VIEW THIS DOCUMENT:

The **Negative Declaration**, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue, Sunnyvale.

This **Negative Declaration** may be protested in writing by any person prior to 5:00 p.m. on **Wednesday**, **December 28**, **2005**. Protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a **Negative Declaration** will be considered by the adopting authority, whose action on the protest may be appealed.

HEARING INFORMATION:

A public hearing on the project is scheduled for:

E-12951

Monday, January 23, 2005 at 8:00 p.m. in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

TOXIC SITE INFORMATION:

(No) listed toxic sites are present at the project location.

Circulated On December 28, 2005

Signed:

Andrew Miner, Principal Planner

PLANNING DIVISION CITY OF SUNNYVALE P.O. BOX 3707 SUNNYVALE, CALIFORNIA 94088-3707

NEGATIVE DECLARATION

This Negative Declaration has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Use Permit by KC Associates.

PROJECT DESCRIPTION AND LOCATION (APN):

Application for a Use Permit on a 2.6-acre site to allow a new seminary within 7,200 square feet of an industrial office building. The property is located at 850 Stewart Drive (near DeGuigne Dr) in an M-S (Industrial & Service) Zoning District. (Negative Declaration)(APN: 205-26-003)

FINDINGS:

The Director of Community Development of the City of Sunnyvale, California, hereby determines that an environmental impact report is not required. There are sufficient environmental controls incorporated into the zoning regulations to ensure no significant detrimental effect.

The above determination is based upon the initial study conducted in this matter, information provided by the applicant in an "Application for Environmental Finding" that Is based on information provided by the applicant in an "Application for Environmental Clearence" and is based on the fact that the use is in keeping with not in conflict with the adopted General Plan, The Zoning Ordinance and the Subdivision Ordinance. That the use is specifically permitted by a Use Permit that sufficient environmental controls are incorporated in the Zoning and Subdivision regulations as to ensure no significant detrimental effect. No endangered species are known to

This Negative Declaration may be protested in writing by any person prior to 5:00 p.m. on Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

PROJECT TITLE/LOCATION (INCLUDE COUNTY):

The Use Permit is located on 850 Stewart Drive, City of Sunnyvale, County of Santa Clara in an M-S (Industrial & Service) Zoning District.(APN: 205-26-003)

PROJECT DESCRIPTION:

Application for a Use Permit on a 2.6-acre site to allow a new seminary within 7,200 square feet of an industrial office building.

FINDINGS OF EXEMPTION:

- 1. This project is in an urban setting.
- 2. There is no alteration of land or effect on fish or wildlife.

CERTIFICATION:

I hereby certify that the public agency has made the above finding and that the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game

required	

Description of the Project: The applicant proposes a Use Permit to allow a seminary use within an existing building located in an industrial zone. The site was previously approved for a 9-condo lot. The seminary would occupy the central 1-story portion of the building. The remaining area would remain as general industrial/research and development office uses. The applicant will be required to obtain a building permit subsequent to planning approval of the project. During the week, approximately five people would occupy the office portion of the tenant space. During Tuesday and Thursday evenings and Saturdays, seminars/classes would take place with up to 35 people attending the site.

In conjunction with the approved subdivision, certain upgrades to the site will occur including new sidewalks and perimeter landscaping.

Surrounding Uses and Setting:

Surrounding the subject site in all directions is mostly industrial/research and development office uses with a restaurant/café directly to the north across Stewart Drive.

EVALUATION OF ENVIRONMENTAL IMPACTS

- 1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific actors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific actors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 3. All answers must take account of the whole action involved, including off-site as well as onsite, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 4. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, at less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is
- 5. "Negative Declaration: Potentially Significant Unless Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analysis," may be cross-referenced).
- 6. Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:
- 7. Earlier Analysis Used. Idealify and state where they are available for review.
- 8. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
- 9. Mitigation Measures. For affects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project
- 10. Lead agencies are encounted to incorporate into the checklist references to information sources for potential impats (e.g. general plans, zoning ordinances). Reference to a

ATTACHMEN	IT C
Page O o	18

Project Number: 2005-1174 Project Address: 850 Stewart Dr. Applicant: KC Associates

previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED: The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages. Aesthetics Hazards & Hazardous Public Services Materials Agricultural Resources Hydrology/Water Recreation Quality Air Quality Land Use/Planning Transportation/Traffic Biological Resources Mineral Resources Utilities/Service Cultural Resources Systems Noise Mandatory Findings of Significance Geology/Soils Population/Housing DETERMINATION: (To be completed by the Lead Agency) On the basis of this initial evaluation: I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE M I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required. I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required. g.	Place housing within a 100-year floodplain, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?				\boxtimes	2, 24, 25, 111, 112
h.	Place within a 100-year flood hazard area structures which would impede or redirect flood flows?					2, 24, 25, 111, 112
i.	Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?				\boxtimes	2, 24, 25, 111, 112
j)	Inundation by seiche, tsunami, or mudflow?					2, 24, 25, 111, 112

Discussion:

- **5.b. LAND USE AND PLANNING:** The proposed use is not permitted as a matter of right within the M-S Zoning District and approval of Use Permit is required in accordance with the zoning for this area.
- **13.a. TRANSPORTATION / TRAFFIC:** The proposed use may increase traffic to the site. The site is currently vacant. Staff does not expect the estimated levels to exceed the existing or the proposed levels of the site.
- 13.f. TRANSPORTATION / TRAFFIC: Staff is currently working with the applicant to clarify which uses will be restricted to which parts of the site, which will enable a final determination to be made regarding parking requirements. As the applicant has proposed to meet the City's requirements, this issue will be addressed through restriction to the locations and times of use on the site.
